
It's Time to Head to Switzerland!

Explore Switzerland with Ayla and Elias in this exciting new expansion.

Check your watch – the Switzerland Expansion arrives today in Ticket to Ride®!

Travel from border to border with photographer Ayla Vogel and watchmaker Elias Hartmann aboard the Splendid Smokestack or the Blizzardblaster. Take passengers on a scenic route upon the Golden Wanderer carriage, or head to new heights in the Barrelbahn carriage.

Connect Switzerland's neighbours – Austria, Germany, France and Italy – to complete tricky country-to-country tickets and score big points. With limited nodes available for each bordering country, you'll need to quickly adapt to the board as routes are blocked off. If you leave a country-to-country ticket incomplete, it'll deduct points at the end of the game...

To celebrate the launch of the Switzerland Expansion, we're also releasing the **Winter Wonderland bundle**! This bundle contains two new festive tokens called the Santa's Wheels and Special Tree-livery, perfect for adding a little Christmas magic to your next game!

The bundle also unlocks **two brand-new player colours**! With the Winter Wonderland bundle, you can stand out in your next game by picking terrific teal or perfect purple.

Delve into an all-new challenge in Ticket to Ride®: Switzerland Expansion. Buy it today!
